

Summer Consumption Protocol. In order that single-family residential users of wastewater service shall not be unduly charged for sprinkling their lawns and other summer activities where higher consumption does not have a nexus to cost recovery and wastewater treatment, the following calculation related to consumption shall apply to said single-family residential users:

- (1) The sewer charges for May and June shall be calculated on the basis of water usage in the months of November and December, respectively. The sewer charges for July and August shall be calculated on the basis of water usage in the months of January and February, respectively.
- (2) In the event that the total actual water usage for said months of May, June, July, August and September in subsection (1) of this section is less than the total actual water usage for said months of November, December, January, February and March, then the charges for the months of May, June, July, August, September shall be calculated on the basis of the total actual water used in these months.
- (3) The aforementioned consumption protocol will be executed and in effect immediately following the meter readings conducted in May. Notwithstanding the preceding, the summer consumption protocol will be observed on the bills mailed in June, July, August, September and October, where it will conclude.
- (4) The aforementioned provisions shall apply to each lot, parcel of real estate or building which is occupied and used as a single-family residence. Said provisions shall not apply to any premises which are partially or wholly used for multifamily, commercial or industrial purposes. In the event a portion of such premises shall be used for single-family residence, the owner shall have the privilege of separating the water service so that the residential portion of the premises is served through a separate meter and in such case the provisions hereunder shall be applicable to that portion of the premises used for residential purposes.
