

**TRAFFIC SAFETY MEETING**  
**May 7, 2024**

The Traffic Safety Commission met in person at 3315 Ridge Road, Highland Police Dept. Chief Potesta called the meeting to order at 8:00 A.M.

Roll Call:                   Mark Knesek, Public Works Director  
                                  Mike Pipta, Fire Chief  
                                  John Banasiak, Patrol Commander  
                                  Steve Jurczak, Police Commissioner

Absent:                      Tom Black, Councilman

A residents' request for a "Deer Crossing" sign for the 8900 blk of Grace Street was discussed. The Traffic Safety Commission determined the speed limit along Grace Street was 20mph, thus there was not a need for signage as traffic should be aware of its surroundings.

A residents' request for "Cross Traffic does not Stop" signage at Southbound Branton and Lincoln and also Northbound at Southmoor and Lincoln as the opposite sides already have signage posted. Public Works Director Mark Knesek will have the signs made and posted.

Other items:

The bike path crossing on Highway Ave has some safety concerns for bicyclists, with the possibility of portable speed bumps being placed for summer months. Public Works Director stated he would look into this. He will also check the bushes around the crossing area and if they need to be trimmed, he will contact the Park Department.

With no further the meeting adjourned at 8:20 am.
