

What I think can improve Highway Ave.

We all know there's a lot of shops on highway Ave. There are restaurants, hairdressers etc. One thing that can improve Highway Ave is another community outreach like the ducks. I think it'll be good for the environment.

The second thing is somewhere between Kennedy and 4th street would be green (not blocking off the fire station). Meaning that would be a pedestrian only area. Maybe some flower beds in the middle. I think that would be nice. My third thing is that there could be bulb lights on both sides of the street, and café style tables and chairs on both sides.

My fourth thing is maybe adding some food trucks, so there could be more options to eat. Along with the food, I think that Highland should host a \$20 dollar food night. People can go to any restaurant (on Highway Ave) and say they are with the event. The people would get a menu specifically for it. We cant have people going around saying they are with it without any proof so the people who are with it should have like a wristband or something similar.

My last thing is I think there should be a designated duck area. Families could purchase a little wooden duck to decorate and hide around Highway, like a scavenger hunt and post it on Facebook. If they wanted too, they could also pay to pet a duck. I'd say to purchase a wooden duck should be at least \$15. To pet a duck should at least be \$10.
