

The following is our study session agenda for August 19th, 2025. If there are any additions, please send them to G Cieslak.

- Sanitary District Engineer Status Report. DEREK
 - Lining project status
 - Next locations for lining
 - Storm drains connected to sanitary sewers

- Public Works/Sanitary District Status Report . MARK K.
 - New equipment requirements
 - Sewer cleaning plan
 - FOG from local businesses

- Sanitary District Attorney Status Report. Does Highland now have Hammond's complete operations and maintenance financial expenditure plan, including rate of return, in order to perform a full review and analysis of HSD deliverables so as to determine a fair treatment rate? Do we have any new information regarding the status of litigation between Munster and Hammond? Update regarding complete evaluation of HSD proposal for construction of interim connection while Hammond's project is delayed due to the Munster litigation including whether HSD has fully responded to the questions (1-10) previously propounded by Highland.
