

Tree Down in Your Parkway? We've Got You Covered.

Here's exactly how Public Works can help with removal — and who covers the cost.

WHAT COUNTS AS YOUR "PARKWAY"?

 House your property	 Sidewalk	 Parkway grass strip between sidewalk & street	 Street
--	---	--	---

Let Us Handle It

Tree down in your parkway? **Contact Public Works** and our tree crew will complete the removal for you.

Hiring Your Own Crew?

Totally your call — if you'd rather use your own tree service, that's fine. Just know **the cost is your responsibility**.

Tree Landed in the Street

If the parkway tree came down **into the street**, the **Town covers** the cost of removal.

Tree Hit Your Home or Garage

If Town crews complete removal after a tree hits your **house, garage, or other structure**, we'll ask you to **work with your homeowner's insurance** to help cover the cost.

Please take photos and keep documentation of the incident — this helps support any claims, no matter which scenario applies to you.

Thank you for your patience — we will continue working to clean up parkways and sidewalks as other high-priority storm activities are completed.

Ready to report a downed tree?
